# OCCASIONAL USE

## INSTANT ACCESS TO WORLDWIDE EVENTS

The global television industry relies on us to give their customers access to events as they unfold. But it's not just video broadcasting, we're here to help across the board, from the corporate sector to disaster recovery.

### WORLDWIDE, RELIABLE, TURNKEY SOLUTIONS 24/7

Eutelsat's Occasional Use services provide the global television industry with bespoke global coverage and turnkey solutions for cost-effective access to our extensive satellite fleets. With a full range of C and Ku-band capacity, our seamless connectivity enables you to broadcast local, regional, and global events everywhere.

Our dedicated, highly skilled team are available 24/7 to advise you on the best tailored broadcast services for your SD, HD and 4K requirements. All your occasional TV broadcasting needs are covered, whether you want to transmit recurring or scheduled events, over specific time periods.

Our highly reliable solutions are also essential to ensure business continuity in the event of a critical live event.

### WHY CHOOSE EUTELSAT?

#### // GLOBAL COVERAGE

Eutelsat's fleet covers 150 countries representing 90% of the world population.

#### // EXPERTISE

Eutelsat's Sales and Reservation Centre has a unique breath of experience to advise you and deliver best in class services all over the world.

#### // RELIABLE

A highly skilled team of satellite network engineers continuously provides you with a fully reliable service. Our control centres operate 24 hours per day, 7 days per week, 365 days per year.

### RESERVE YOUR CAPACITY

Contact the Sales and Reservation Centre to discuss your occasional-use broadcast needs:
